Library Report

Bernice M. Moseley, librarian

Last week meetings were held with each of the directors of the Moline and Rock Island public libraries, in regard to their housing our BGS library collection.

Points to consider:

Moline Public Library, KDB room, Mr. McQuade director:

1. We would not be able to have all of our material together in one place. Storage would be required at the Beling building.

2. Moline library will need the shelves in the KDB room in 2 - 3 years, for their own growth. They have books stored that could be placed on the shelves now, should we decide not to move there.

3. We need to be very selective with what we add to our collection, to insure enough growth space for 2 years. We will not be able to receive any more space in Moline.

   The quarterly exchanges are taking up the most area, during the past few years we have weeded out some that haven't come up to our standard. We want to be able to receive back issues donated by our members, Janet Pease has donated the Colorado Genealogist dating back to 1968, (with only a few missing issues).

Rock Island Public Library, Mr. Warwick director:

1. Rock Island needs and wants our collection, but does not have space ready at this time. Mr. Warwick is very interested in historical research material and is anxious to work something out with us.

2. The Director would like to build an addition to the library, but that would be approximately 5 years in the future. He has plans to remodel the room that has the local history collection. Perhaps plans could be made to transfer our library material there at some future time.

After much thought and consideration, it seems to be the best solution for now, to move our collection into the KDB room at the Moline Public Library. We would remove our 2 cabinets to the Beling building and use the Moline Library"s shelves.

This would be a temporary solution, with another move in the future.
